Our close proximity to the prestigious Gulf Harbour Country Club, one of New Zealand's best golf clubs, Wentworth College is ideal for students wishing to combine their academic studies with their golf career aspirations. Students are able to walk the 5 minutes from their classroom to the golf course, and have full facility use of the chipping green, pitching green, driving range and 18 hole course.

A culture of excellence and achievement exists at Wentworth. We combine the best of a traditional education with an emphasis on core values and principles, alongside a progressive and future focussed curriculum. Skilled, enthusiastic teachers are able to prepare our students to be high achievers. Our focus on a

low teacher to pupil ratio is something that allows us to maximise student learning, as well as ensure positive teacher and student interactions.

Past students of the academy have gone on to enjoy Golf Scholarships at various American Universities, and have become PGA professionals and have successful careers in the golfing industry. Contact us to discuss how we can help you combine a top academic education with the opportunity to pursue a passion for golf at the same time.
